At the Teacher's Institute last Saturday, Miss A. S. Bailey read an interesting essay on Japan, which was both instructive and amusing.

Neither the *Imperial* nor the *Intelligencer* of this week had a Bristol letter. The correspondents must have become weary of copying from the *GAZETTE*.

The tax rate for Bristol Borough has been fixed at 77 cents on the hundred dollar. It is expected that the coming year will be less than \$5,000 the coming year.

The new cooking stove manufactured at Thomas B. Harkins' family on Dorchester street, are pronounced by those who have used them as being in every way superior to all others.

A late tug boat now being built at the shipyard of Crum & Son, Philadelphia, is to run between Bristol and Philadelphia, and take the place of the two boat Delaware, which is to be taken of.

Don't forget to hear Mrs. Gendry's musical evening at Johnson's Hall. Her recitations furnish an entertainment that is delightful to everybody. Nothing to avoid it, you can only listen, enjoy and applaud.

John G. Galloway, the enterprising expert manufacturer, has made another addition to his factory, and has added a steam engine to his works. He is doing a thriving trade, and the factory is run to its full capacity.

Rev. Phillips Brooks, of Boston, will preach at St. James' Church, Bristol, on Sunday, 22nd inst. Mr. Brooks was formerly rector of the church of the Advent, Philadelphia, and is personally well known to many of our Episcopalians.

As an evidence of the growth and prosperity of Bristol, and of the esteem in which this paper is held, we mention the fact that since the first of April over one hundred and fifty Bristol subscribers to the *GAZETTE*, have been added to the large list of its patrons residing in the borough.

Dr. G. W. Kirk was taken sick while in Philadelphia last week and at one time was very dangerously ill. He recovered sufficiently to return to Bristol on Monday. During his indisposition Dr. Eugene Link has charge of his practice. Dr. Kirk resided here several years ago when his father was pastor of the Methodist church.

At a stated meeting of the Bristol Woolen Mill Fire Brigade, held on Thursday evening, March 29th, the following officers were elected for the year 1877: Samuel Appleton, President; John Palmer, Vice President; H. Appleton, Jr., Charles Smalley, C. Appleton, Sr., Frank Butler.

Jonathan Kelly, a well known character in Bristol, was shot on Monday last week against George Sillit by assault and battery, alleging that he was ejected by him from the Cottage Hotel with more force than was required. He did not sustain his charge however, and the case was dismissed at the cost of the complainant. Kelly is lying in condition to respond, was placed in the lock-up for a few hours, when he furnished the security for the requisite amount, and was permitted to depart, and amuse upon the uncertainty of the law.

The Conference of Baptist Ministers held in the Bristol Baptist Church, on Tuesday of this week, was attended by the following clergymen: Rev. N. B. Baldwin, George Bowman, Joshua Phillips, S. V. Marsh, M. E. Corwell, Wm. Sainden. The morning session was occupied in the discussion of the question, "How to make the prayer meeting more profitable." The afternoon session, by reports from the churches, was followed by a plan of service, by Rev. S. V. Marsh, with criticisms by the conference. The evening session was devoted to discussions on several Sunday School topics.

The Methodist Sunday School purpose having an enrollment which is unique in its character. It will be known as a big breaking party. The object, of course, is to raise funds for the school, and this is the way it is to be done. Every person being admitted to the entertainment will be furnished with a small jug, which will be placed whatever amount of money the person is willing to give. The jug then a passport, and admits its bearer to the exhibition, at the close of which the jugs are broken, and the money taken out. As the jugs are all alike, it will not be known to whom the various jugs broken belonged.

A great excitement was created on Sunday by the cry of "mad dog." Shortly after hearing the alarm a *Gazette* reporter saw a dog running at full speed down Main street pursued by a crowd of men and boys. The animal was shot at several times but finally escaped with only a considerable laceration on his hind leg. He did not appear to be hurt, and was seen by several persons and a young man named William Allen. Dr. Groom cautioned Allen's wound and thinks there is little danger to be apprehended as the thick woolen clothing he came in contact with the skin. The dog returned to Bristol on Monday morning and was shot at and wounded slightly by a boy named Stockman while on the road between Tullytown and Bristol but has since disappeared. He was the property of Hugh Thomas of Bensalem, and his number of dogs in the vicinity of Bridgeville and Edgington before his advent in Bristol.

The Bristol Improvement Company.

The Bristol Improvement Company have just issued a little pamphlet containing their charter, by-laws, and an address which sets forth the objects for which the company was formed. The address is as follows:

"It having become evident that the advantages possessed by Bristol as a manufacturing point, are being neglected, and that various industries, as a place in which to locate in order to escape the growing expenses of the larger cities—this company has been formed for the purpose of encouraging such enterprises by affording them such facilities as may be extended, without in any manner assuming the risks and responsibilities incident to a participation in the business.

"This it is proposed to do by procuring the desired locations and erecting the requisite buildings, to be furnished upon lease or rental, thereby relieving the proprietors from the considerable expenditure ordinarily entailed for such purposes and at the same time giving to the citizens of Bristol and vicinity an opportunity to further the growth of the material interests of the town, by assisting in the establishment of these industries in their midst, while securing a desirable investment for themselves.

"An application was accordingly made and charter obtained December 18th, 1874, under the general law, granting the right to purchase and sell, hold, improve and lease lands in Bucks County.

"The organization was duly effected, and By-Laws adopted providing for the general management of the company so as to best promote its object and protect the interests of its members.

"Eight hundred and sixty shares of the capital stock have been issued, and forty-three thousand dollars paid into the treasury, which is invested as follows, to wit:

Bristol Wares Mill, \$38,000
Bristol Foundry, 5,000
Total, \$43,000

"The Bristol Wares Mill embraces a lot at the corner of Canal street and Jefferson avenue, 200 by 375 feet, with a two-story stone building, 50 by 225 feet, and two-story wing, 25 by 100 feet, 100 ft. engine and boiler, pump, sprinklers, and other appliances for protection against fire. The buildings are erected in a substantial manner, and are insured upon a basis provided to be no more costly than an average dwelling. These are rented to Messrs. Grundy Bros. and Campbell, for a term of five years, at ten per cent. of the cost per annum.

"The Bristol Foundry comprises a lot at the corner of Canal and Dorchester streets, 100 by 110 feet, a two-story stone warehouse, and a one-story stone and frame factory building, insured at one per cent. and rented to Thomas B. Harkins at \$500 per annum, or nine per cent. of the cost.

"The law under which the company is organized provides for an increase of capital not to exceed the amount of its authorized stock, and it is the purpose to issue additional stock from time to time as applications may be made by responsible parties for manufacturing facilities upon an arrangement similar to those already effected.

"It is the design of the Board of Directors to make the stock of the company a safe and remunerative investment based upon unimpaired and productive real estate, of a character not liable to serious depreciation, and in order to more fully protect the shareholders, article 4th in the By-Laws was adopted, closely restricting the power of the Directors to create indebtedness.

"To meet what has grown to be a universal demand of the investor, it is also the intention of the Board to make quarterly dividends.

The Directors of the company are William H. Grundy, Josiah Peirce, Robert W. Rogers, Charles E. Schaefer and Charles W. Peirce.

A REMEDY FOR HYDROPHOBIA.

The *Collegio Gazette* of March 13th says: The alarming frequency of cases of hydrophobia gives renewed interest to a case which was cured in the Franciscan Hospital of St. Maurice, near Montreal, in Westphalia, in October, 1874.

On the fact that this was really a case of hydrophobia the attending physician, Dr. O'Brien, seems to leave no doubt. After trying morphine and chloroform in vain, recourse was had to the Indian arrow poison, *poison pruri*.

Within the space of five hours two deliriums of the poison, divided into seven portions, were injected under the skin of the patient. The spasms now became less frequent and weaker, and the patient ceased within nine hours after his first cure.

The patient finally recovered his health.

"The Sheriff of New York makes, it is said, about \$50,000 per annum.

Langhorne Notes.

Movings are over, households are established on a firm basis for another year, and the domestic element is flowing smoothly onward. Craig Sharp has sold his house here, to Jos. Derry, for \$800.

The new Council have met, with Ezekiel Tomlinson as president. Their arrangements for future improvement are being perfected, and a plan has been placed in the moist holes, and grubbing over the muddy roads will now cease.

Tramps hereafter will not be provided with lodgings unless they pay for the same, by breaking stone upon the streets.

Some porches still need moving in or down. "The Beacon" was moved here on Friday amidst the rejoicing of the inhabitants of Langhorne. A paper has never been published here, so it will be a matter of pride and pleasure to support it.

Jonathan Kirkbride cut his instep severely last week, with a broad-axe, while painting rails. He was enforced to use crutches for a few days.

Colored quarterly meeting Sunday last, not such an gathering of our "bruders" and sisters as the meeting of last Monday.

Friends' school opened on Monday, under Mrs. Sue Gilliam, with a good attendance. The public schools are filling up rapidly with new centers.

The Building Association sold \$500 for par. Farmers are ploughing for corn, and much of the oats is sowed.

The floral beauty is increasing, until our windows are ablaze with fragrance. It is reported that blue grass will be tried by some of our invalids.
